PRIMEVAL FOREST SAGA

Nothing is more majestic than a forest in winter. From delicate ornaments enriched by plant motifs, interspersed with snowflakes, to a sprawling tree that will reign over its designated space just like an ancient oak, we wish to transfer the soothing and calming feel of the primeval forest into the realities of the urban jungle.

SNOW QUEEN

Cold, inaccessible, yet with unearthly beauty – this is how the Snow Queen has been inked onto the pages of culture, and we have created a line of ornaments to emphasize these attributes in her honor. You won't find any warm, yellow lights here – a coloristic minimalism based on cool shades of white and blue reigns here, endowed with magnificence by ornaments of refined form, as if taken straight from the ice palace itself.

KING'S COURT

A king's ball requires suitable decoration. To bring out the "royal" ambience, we have prepared a courtly collection full of rich forms, dripping with pomp, and we have to admit that the motto "more means more" is very fitting for holiday decorations. Resplendent, golden candelabras, fountains, balls, garlands are all featured here, alongside sculpted courtiers and a balloon inspired by the one from the Count of Monte Cristo's welcome party. Gold is richly sprinkled with silver here, highlighting the exquisite character of this collection.
